<ul style="list-style-type: none">• Spillages• Contamination of skin/eyes/ accidental swallowing• adults/children / pets have contact with wet product• spray drifts on to other plants.		X X X X	
Resulting Harm	Persons at Risk		
<ul style="list-style-type: none">• Poisoning• Skin rashes/ irritation• Other plants are killed	<ul style="list-style-type: none">• Operator• Members of the public		
CONTROL MEASURES <ol style="list-style-type: none">1. Operator should wear appropriate personal protective equipment including rubber/ nitrile gloves, wellingtons, arm and leg cover, goggles and face mask (of appropriate type)2. Spraying should be carried out in calm weather and at a time of day when the village is quiet.3. Operator should remain on site until the spray has dried or If spraying site is left before then warning signs should be placed prominently.4. Accidental spillages should be covered with absorbent material such as soil, sawdust, cat litter then shovelled up and placed in a container such as a heavy duty plastic bag or bucket. This should then be disposed of appropriately – according to guidance at the recycling centre.5. Contamination of operator or other person- skin should be washed with water, eyes should be cleansed with water or eye wash.6. If swallowed call 9997. Product should be kept in its original container8. Product should be used according to instructions provided by the manufacturer.9. Any incidents must be reported to the Parish Clerk or a member of the Parish Council.			

Residual Risk remaining: Medium
